

Comune di Lecco

# SUMMER IN LECCO 2018

# THE MAJOR

## Summer 2018 in Lecco, a season to live together!

Summer is coming and it brings many events and activities to enjoy a beautiful city like our Lecco.

A lively calendar of initiatives for citizens and tourists, which is reflected in the growing number of visitors increasing each year. They respond positively to the varied offer of the territory: cultural, musical and sport events, opportunities to enjoy the natural beauty of the lake and the mountains with many possibilities for excursions, routes and guided tours, up to moments of entertainment and shopping.

This is all possible thanks to a city that is able to welcome and to propose itself, as it's demonstrated by the range of events on this calendar, that are the result of the commitment of many city realities.

This calendar is so rich that's impossible to cite even just a few of them in this brief introduction. But I would like, at least, to resume the sections dedicated to the initiatives shown in this brochure. These activities are really significant and they contribute to a more organic and rich summer calendar.

There are: the “**visit the city**” section, many opportunities for possible itineraries and guided tours in Lecco; the “**music in the city**” section with its festivals of different musical genres; the “**cinema and books**” section with specific summer proposals; the “**museums in summer**” section full of interesting exhibitions; the “**white night**” section, a successful mix of entertainment and culture; the “**sport in the city**” section with numerous events. This last one is a sign of a particular vocation of the territory towards sports and outdoor activities that, in the natural scenery offered by the city, gain further value. There is the “**over 60**” section too and much more, such as the news of the **Festa Lariana** and the **August Festival “A testa su”** (“Heads up”), without forgetting the **traditional lake and mountain festival** and the **fireworks show** on June, 24th.

Comune di Lecco

It's not missing a section dedicated to **shopping and markets** (since this year it's also experienced in some neighbourhoods of the city).

A great thank to associations, sponsors, public and private realities that have contributed and collaborated to the definition and to the organization of this program. Thanks to them it's possible to offer many quality proposals to everyone who visits the capital.

The territory around Lecco is waiting for you with many activities: a **tour on the water of our lake** (the boats will guarantee rides on Saturdays even in the month of October too), a climb through the **cableway up to Piani d'Erna**, excursions and activities at **Piani Resinelli**, a comfortable ride on the **Ferris wheel** or the climb of the **San Nicolò bell tower**, from which you can enjoy a breathtaking view.

It's up to you to decide!

**Enjoy your summer!**

**Virginio Brivio, mayor of Lecco**
