

Comune di Lecco

SUMMER IN LECCO 2017

THE MAYOR

Lecco will donate us a really magical summer to enjoy together!

This year, the program “**Summer in Lecco**” is, more than ever, richer in news.

The opportunities of fun and entertainment are increased, together with the cultural appointments, athletic and musical events for every citizen, guest or tourist who comes on our lake shores. Lake shores that are always more frequently traversed by bike, in a city that is getting more opened and equipped for cyclotourism. As demonstration, there are two very important events dedicated to this sport: the **European festival BikeUp**, that took place in May and gave the start to the warm season, the **Ciclostorica “La Ghisallo”**, and the first edition of the **Granfondo Don Guanella Città di Lecco** in October. But we surely won't stop here.

In the next weeks will take place many moments that aim to attract the largest possible public, both from a generational point of view and from interests. Initiatives dedicated to children won't be missed, from the youngsters to a more adult audience without forgetting the over 60. In particular, teenagers can participate for the first time to the **Lecco Summer Festival**: on the stage prepared in the park of Villa Gomes in Maggianico, a lot of artists and musical groups with a really huge appeal will perform.

Something new in a novelty: a festival for youngsters in a new and amazing location, in the general intent to exit from the “official channel” and to bring moments of aggregation on the city's neighbourhoods. Changing kind of music, thanks to the **Lecco Jazz Festival** we will listen great artists of international fame.

Fun for everyone in the **Notte Bianca 2017**: music, dances, opened museums and shopping will animate the city in the night of 15 July.

Then the traditions: on Sunday, 25 June will go on stage the **Feast of the lake and of the mountain** that will end with the wonderful fireworks on the lake. I also signal the really expected **My Secret Dinner** that will be, this year too, a encounter opportunity for many people.

Comune di Lecco

And then comes solidarity, with the beneficial initiatives promoted by the hard-working realities of the territories, the culture with exhibitions, kermesses and museums opened all summer long and the sport, with manifestations as the **ResegUp**, the **10 km del Manzoni**, and the **Assalto al Resegone**

The tourists season won't end until October, when the manifestation **Lecco Città dei Promessi Sposi** will start and the squares will go through life thanks to the **Feast of Lecco**, the 10th edition of the **Festival of travels, places and cultures "Immagimondo"** and to **"Manifesta"**, the biggest window dedicated to social works and to non-profit.

Summer in the city also means taking the opportunity to discover our land, not just as guests or tourists, but for every citizen of Lecco too. We can enjoy our lake, our mountains and all the beauties that they can offer us: from the excursion to the lake with deals offered to residents and tourists who sojourn in the accommodation facilities of the city, to the different reductions and **special tariffs of the cableway in Piani d'Erna**, to the numerous mountain paths that surround us and the **Piani Resinelli**.

Let me thank the collaborators of the Municipality of Lecco, the associations, the sponsors and everyone who has made the realization of this rich program possible. On the website of the Municipality of Lecco [www.comune.lecco.it], and by my weekly Newsletter, you can always be updated about the ongoing events.

Don't fall out of touch, and enjoy your Summer in Lecco!

Virginio Brivio, mayor of Lecco
